SUBJECT INDEX

AIDS
HIV, condom data, preventive interventions 267
Alcohol
binge drinking, Theory of Planned Behaviour, young people 163
Health in Wales Survey, beliefs, consumption 25
illegal spirits, mass media campaign, evaluation, longitudinal survey 275
Body weight
self-reported data, accuracy, Stepped Approach Model (SAM) 301
Breast cancer
cervical cancer, screening, illness representations 529
Breastfeeding
Transtheoretical Model and the Theory of Reasoned Action 331
Calcium consumption
health salience, exercise, women 399
Cancer
breast cancer, cervical cancer, screening, illness representations 529
health education, breast cancer, cervical cancer, screening program, ecological model 293
Cardiovascular disease
health communication, socioeconomic factors, risk factors, knowledge gap, US Whites, US Hispanics, men 407
nutrition education, low literacy, adults 567
Cervical cancer
breast cancer, screening, illness representations 529
health education, screening, Native-American women 545
Cold/flu
self-care, public education campaign 33
Community health
health programs, sustainability, institutionalization, capacity-building, community programs 87
Condom
data, HIV, AIDS, preventive interventions 267
HIV, HIV prevention, self-efficacy, skills training, Thailand 357
use, HIV, self-efficacy, decisional balance, women 343
Diet
healthy eating, unhealthy eating, perceived diet, dietary change 171
Education policy
sex education, schools 67
Exercise
health salience, calcium consumption, women 399
Food consumption
school meals, secondary school, UK 73
Foucault
health promotion, public health, nutrition, ethics 459
Health behaviours
stage of change, reliability 285
Health education
cancer, breast cancer, cervical cancer, screening program, ecological model 293
cervical cancer, screening, Native-American women 545
health promotion, HPE expenditure, England 133
healthy eating, Scottish island communities 371
media research, television entertainment, lower socio-economic groups, the Netherlands 503
nutrition education program, implementation 239
physical fitness, physical activity, intervention, children 593
prediction, explanation, making assumptions explicit, understanding, sense-making, sensitization, critique 439
Health in Wales Survey
alcohol, beliefs, consumption 25
Health programs
community health, sustainability, institutionalization, capacity-building, community programs 87
Health promoting schools
satisfaction with school, school climate, school perception 383
Health promotion
health education, HPE expenditure, England 133
heart health promotion, public health, capacity, predisposition, implementation 607
mental health, conceptualizations 57
nutrition education, dissemination, supermarkets 557
Project 2000, perceptions, UK 185
public health, nutrition, Foucault, ethics 459
sexual behaviour, psycho-social theoretical framework, Scotland 317
social justice 451
tobacco control, community coalitions, qualitative methods, Project ASSIST, North Carolina 225
Health salience
exercise, calcium consumption, women 399
Healthy eating
health education, Scottish island communities 371
HIV
AIDS, condom data, preventive interventions 267
condom, HIV prevention, self-efficacy, skills training, Thailand 357
condom use, self-efficacy, decisional balance, women 343
Illegal spirits
alcohol, mass media campaign, evaluation, longitudinal survey 275
Injury prevention
primary health care, training, effectiveness 47
Mass media campaign
illegal spirits, alcohol, evaluation, longitudinal survey 275
Media research
health education, television entertainment, lower socio-economic groups, the Netherlands 503
Mental health
health promotion, conceptualizations 57
Mushroom poisoning
prevention programme, school education, Poland 13
Nutrition
education, cardiovascular disease, low literacy, adults 567
education, health promotion, dissemination, supermarkets 557
education, Stages of Change, fruit, vegetable, fat, misconception 1
education, worksite health promotion, family eating habits 577

education program, health education, implementation 239
health promotion, public health, Foucault, ethics 459
Obesity
formative research, Native Americans, schools, children 251
Physical activity/fitness
health education, intervention, children 593
Project 2000
health promotion, perceptions, UK 185
Public health
health promotion, nutrition, Foucault, ethics 459
heart health promotion, capacity, predisposition, implementation 607
Road crossing
Theory of Planned Behaviour (TPB), pedestrians' decisions 481
School meals
food consumption, secondary school, UK 73
Sex education
education policy, schools 67
Sexual behaviour
health promotion, psycho-social theoretical framework, Scotland 317
Sexual victimization
violence, adolescent females, North Carolina 139
Smoking
attitudes, smoking norms, attitude change, community intervention study 109
attitudes, smoking norms, scale development, reliability, validity 123
cessation, pregnancy, meta-evaluation 419
cessation, primary care, video 519
cessation, readiness to quit, recycle, motivation, self-efficacy 145
cessation, tailored interventions, long-term effectiveness 207
cognitive changes, computerized tailored feedback, Dutch field experiment 197
school-based prevention program, secondary schools, Norway 215
youth magazines, young people's perceptions 491
Theory of Planned Behaviour (TPB)
road crossing, pedestrians' decisions 481
Tobacco control
health promotion, community coalitions, qualitative methods, Project ASSIST, North Carolina 225
Transtheoretical Model and the Theory of Reasoned Action
breastfeeding 331
Violence
sexual victimization, adolescent females, North Carolina
